

DRAGON

Fire-Dragon is a 3-way active speaker designed to be a front LCR speaker for commercial cinemas or larger private home cinemas. Fire-Dragon uses commercial grade Neodymium bass and compression drivers to ensure high power handling, low heat soak and reduced power compression under any conditions. The cabinet design and a high flow port design provides increased bottom end power. Fire-Dragon sits on its hoard and is the undisputed king of power and dynamics. Especially designed for Concert level playback, Fire-Dragon is an experience never to be forgotten.

All Elementi speakers are digital active and benefit from floating 32 point DSP processing, digital crossovers, FIR filters with correction in the frequency and time domains, look forward speaker protection, high flow PASCAL amplifiers and high quality D/A converters. All amplifiers are specified with 3dB of headroom at maximum output to ensure there is no clipping or general distortion. Each speaker is custom tested and run in to ensure optimal performance out of the box.

SPECIFICATIONS

| | |
|------------------------------------|-------------------------------|
| DESCRIPTION: | 3 Way Active |
| USE: | Front LCR |
| ORIENTATION: | Vertical |
| HF DISPERSION: | 90° Horizontal & 40° Vertical |
| LF SECTION: | Dual 12" Neodymium |
| MD SECTION: | 3.5" Compression Neodymium |
| HF SECTION: | 1.75" Compression Neodymium |
| AMPLIFICATION: | 2200W Module |
| FREQUENCY RANGE: | 50-22,000Hz |
| CONTINUOUS/PEAK OUTPUT @1m: | 134 + 3dB Headroom |
| DISTANCE FROM SEATS: | 3-25m |
| IMPEDANCE: | LF 4/ MD 8/ HF 8 Ohms |
| DIMENSIONS: | W:450 x D:280 x H:1009mm |
